

It may be necessary to upgrade existing sluices under embankment.

Note that actual sluice location differs from location on National High Water Mark Mapping.

It may be necessary to create temporary working areas within foreshore at these locations.

Three buried arches at these locations.

Note that actual sluice location differs from location on National High Water Mark Mapping.

Note that actual sluice location differs from location on National High Water Mark Mapping.

No existing sluice at this location.

Note that the foreshore differs from National High Water Mark Mapping due to presence of 1970s arterial drainage embankment.

Flood defence will be required within foreshore at this location.

KEY PLAN

Scale: 1:100,000

Legend:

- High Water Mark
- MAC Area
- Proposed Working Area

Site	Area
A	140.4 m ²
B	500.3 m ²
C	275 m ²
D	69 m ²
E	32.8 m ²
F	94.1 m ²
G	3009.2 m ²
H	449 m ²
I	399.6 m ²
